

2021

SEP	Biochem Bioenerg Heme Proteins , FCT NOVA Marisa R. Ferreira , <i>Geobacter metallireducens'</i> <i>PpcF: a triheme cytochrome with an unprecedented functional mechanism</i>	Bionano , FCT NOVA Maria João Oliveira , <i>Design and assembly of effective gold nanostar immunoprobes for SERSbased assays</i>
22		
OCT	(Bio)molecular Structure and Interactions by NMR , FCT NOVA Sara S. Félix , <i>A tale on intrinsically disordered proteins: from function to curious behaviour</i>	
20		
NOV	Biotox , FCT NOVA Inês Rodrigues , <i>Does urban air particles deposition in seawater affect juvenile sea bass (Sparus aurata)?</i>	Mitochondria and Neurobiology , FFUP Brígida R. Pinho , <i>Activation of Hsp70 modulates protein aggregation: the case of Huntington's disease</i>
17		
DEC	Bact. Cell Surfaces & Pathogenesis , FCT NOVA Joana Figueiredo , <i>Efficient encapsulation of the newly synthesized cell wall protects S. pneumoniae from peptidoglycan hydrolases and host defenses?</i>	Molecular Biophysics , FCT NOVA João Guerra , <i>The importance of a tail: A new perspective of the structure and function of miniferritins</i>
15		

2022

JAN	Infection Biology , FCT NOVA Joana Bugalhão , <i>Unveiling the host cell targets for the Chlamydia trachomatis protein InCL</i>	Blue Biotechnology & Biomedicine , FCT NOVA Juliana Oliveira , <i>Plastic Biodegradation by marine-derived actinobacteria</i>
19		
FEB	Functional Glycobiology , FCT NOVA	Drug Targets and Biomarkers , FFUP
16		
MAR	Yeast Genomics , FCT NOVA	Molecular Mechanisms of Disease , FCT NOVA
16		
APR	Bioengineering of Therapeutic Proteins , UBI	Microbial Stress , FCT NOVA
20		
MAY	Microbial Genetics , FCT NOVA	Pharmaceutical Technology , FFUP
18		
JUN	Biochemical Engineering , FCT NOVA	Nanomedicine , FCT NOVA
15		
JUL	MolMicro of Bacterial Pathogens , FCT NOVA	Human Genetics and Cancer Therapeutics , FCT NOVA
20
